The Crossways Programme *Texts and Contexts* juxtaposes cultural narratives from the colonial and postcolonial periods, with special emphasis on the emergence of modern conceptions of art in philosophy and on the cultural consequences of urbanisation.

3- Accommodation:

Most students opt for private accommodation, either mediated through the University's accommodation office or obtained by other methods. In locations close to the University, you can expect to pay, per person, about £300 per month + £50 charges. Cheaper options a bit further away from the University exist. There is also a limited supply of rooms available to Crossways students in University residences. These are not cheap: approx. £440 per month inclusive. More information on services available at the university of Sheffield are available at http://shef.ac.uk/ssid.

4- Cost of living in the UK:

*From EURES Website*

https://ec.europa.eu/eures/main.jsp?catId=8721&acro=living&lang=en&parentId=7833&countryId=UK&living=

“The UK is considered to be an expensive country, compared to some other countries within the EU. The cost of living varies within the UK. Cities tend to be the most costly places to live, with London being the most expensive city in the UK. It is generally cheaper to live in the Midlands and the North of England, parts of Wales, Scotland and Northern Ireland than in London and the South East.

Britain’s currency is the pound sterling (£), which is divided into 100 pence (100p). The Euro is not used in the UK, although it may be accepted in a few larger stores.

Buying food and clothing in large department stores is more expensive than buying similar items in supermarkets. Many towns have some form of indoor or outdoor market where food, clothing and household items can be bought, and prices tend to be cheaper. Charity shops sell second-hand clothes and household goods, with the profits from the sales of these going to the relevant charity.”
